chat window

Avatar Palette:
- clickable list of avatars
- "mirror" to show which av you are holding
- name field: editable
- checkbox to show/hide name on stage
- opacity slider (av can be faded in & out)
- size slider (av can be scaled up & down in size)
- animate: checkbox or radio button (on or off)
- frame selector: enter frame number
- rotate & flip tools
- delete button to remove media from stage
- could the voice be editable here too??
- could there be a volume slider, to adjust volume of individual avatar voices?
